## ABOUT CHUDAR:

**Chudar, founded by Dr. Ravishankar** and his dedicated team, aims to enhance the quality of education for children from underprivileged backgrounds. Our mission is to ensure that every child graduates high school equipped with the necessary knowledge, skills, and confidence to succeed in their future endeavours. **"Chudar" is a Tamil word that signifies the brilliance or sparkle of a flame**, symbolising our hope that each child will shine brightly in their own unique way through our efforts.

## THE PROBLEM:

Several studies show that most kids are enrolled in school but learn very little. The ASER survey points out that of all children in the age group 6-14, **more than 99% are enrolled, but the majority lags behind in educational outcomes.** This problem persists from primary all the way to high school and the National Achievement survey by NCERT has also shown that children have very low competencies in Mathematics, English, and Science. **The problem affects children from disadvantaged sections, who are often first-generation learners.** The main REASON for low learning levels in TAMIL NADU is the prevalence of rote learning.

## THE SOLUTION:

**Chudar envisions that every child acquires the knowledge, skills, and confidence to face the future.** We develop innovative educational content in Mathematics, Science, and English, with a focus on Classes 6 to 8. This content helps children assimilate skills and concepts as opposed to rote learning. When children truly understand instead of memorising, they become confident learners. Some of the principles of our solution are:

- **Measuring learning outcomes** rather than just inputs
- Prioritising skills over memorization
- Integrating **technology-aided learning** where feasible
- Encouraging local ownership and community participation

Through these methods, we aim to transform students into confident learners who are well-prepared for the future.

## 540+ Masks Distributed

During the COVID-19 pandemic, Chudar contributed to public health by **distributing masks** to families in need. Additionally, we provided crucial support to **government hospitals** in Chennai, Thiruvannamalai. We ensured that these hospitals received an adequate supply of **three-layer masks and N95 masks to protect frontline workers and patients**. This initiative was part of our efforts to mitigate the impact of the pandemic and support vulnerable communities by ensuring access to essential protective gear.

## Helped 4000 people to get vaccinated

We also supported COVID-19 vaccination efforts by printing and distributing **2,000 vaccination tokens** to families for the **government hospital in Chennai, Thiruvannamalai**. Additionally, we provided a **10 litre supply of sanitizer** to ensure proper hygiene. In a further effort, we submitted another **2,000 vaccination tokens to the Medical Office at Kommananthal Government Hospital in Chetpet, Chennai**.

## Face shields, Bedspreads, oximeters and sanitizers

We distributing essential items to many families affected by COVID-19. We provided face shields, disposable bedspreads, oximeters, and sanitizers, which were vital in maintaining safety and health standards. Our efforts ensured that families had access to necessary protective gear and medical supplies, helping to prevent the spread of the virus and manage its impact. We were able to alleviate some of the hardships faced by these vulnerable families.

# 1145+

Families

Our relief efforts targeted severely impacted villages in rural Tamil Nadu, providing **grocery kits with essential supplies to vulnerable families**, including single-parent, underprivileged, tribal, daily wage earners, differently-abled, and COVID-affected families. These meticulously planned initiatives ensured timely support, with volunteers delivering supplies door-to-door while adhering to safety protocols to prevent virus spread. The relief efforts, driven by our after-school center tutors and volunteers, played a crucial role in helping these families sustain through this global health crisis.

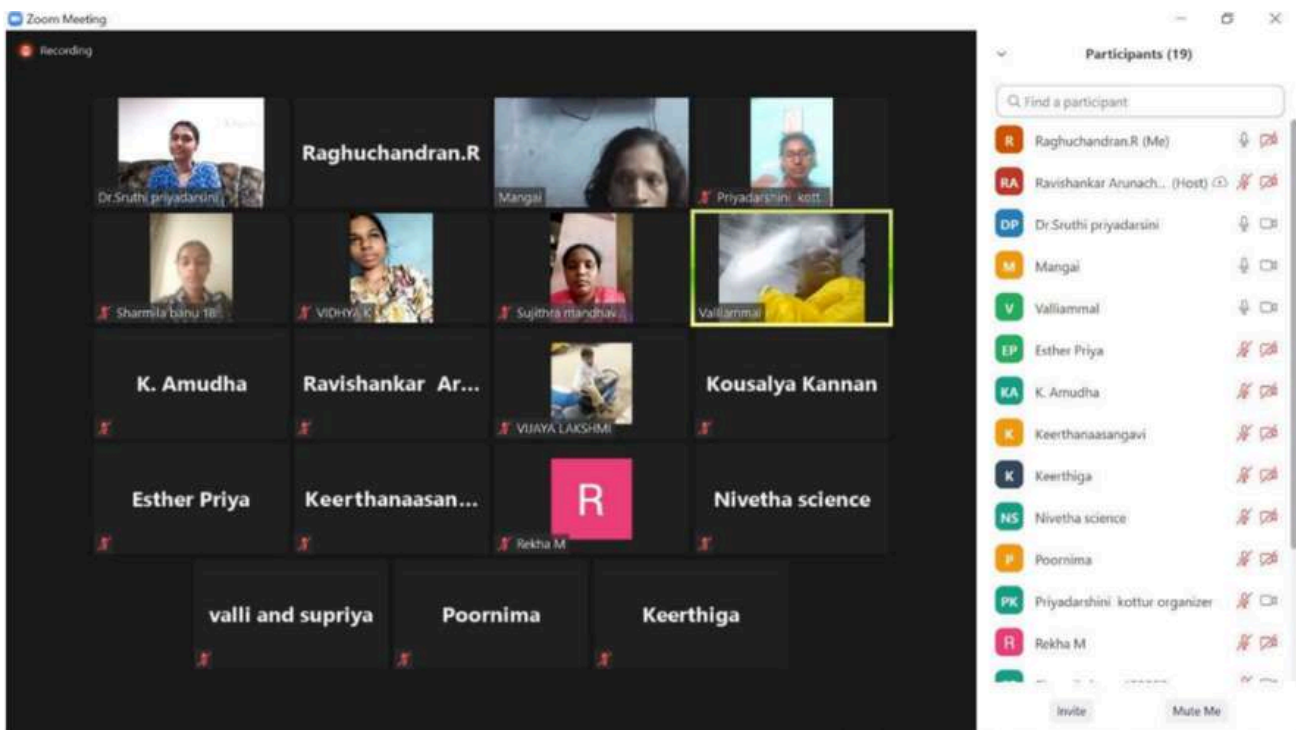

# Relief Materials:

- RICE
- OIL
- SUGAR
- SALT
- SEMOLINA
- VERMICELLI
- DAL
- TURMERIC POWDER
- CHILI POWDER
- WASHING SOAP
- BODY SOAP

# COVID-19 AWARENESS

We launched a comprehensive campaign to educate and protect our community. We began with Zoom meetings for our after-school centre Tutors, led by **Dr. Sruthi Priyadarsini**. She covered the importance of vaccines, recognizing COVID-19 symptoms, treatment options, and the effectiveness of various masks, including double masking.

To raise public awareness, **we produced an informative video** on the coronavirus and conducted door-to-door campaigns, **reaching 30 families in Mandaveli and Kotturpuram in Chennai**. Additionally, we organized a campaign in Mandaveli to teach proper mask-wearing techniques

# VACCINATION INITIATIVE

A significant part of our initiative was a **vaccination camp in Arasampattu village, Tiruvannamalai** where we facilitated the administration of **100 Covishield vaccines** to residents. To further promote vaccination, **pamphlets emphasizing its importance were distributed to various places in Tiruvannamalai**. We also **organised a camp and conducted swab test** to test for the COVID-19 virus.

# **VOLUNTEER EXPERIENCE**

---

I was really fascinated by the dedication the Chudar team put into the creation of these curriculums [Bridge Course designed for students to learn basics]. Technically, these courses are not given by even private schools. But Chudar had a vision to provide additional support to children so that they can imbibe the incoming school curriculum even better. This spirit of dedication and going the extra mile is something I'm grateful to have learnt from Chudar.

After completing the Bridge Course, Mirinalee, Kavya Ganesan and myself were put in the Spoken English department where we cumulated efforts to improve our children's spoken English. After we designed some listening and reading and speaking activities and interacted with our children, we found out something amazing: our children were an extremely enthusiastic bunch! Mirinalee, Kavya and myself decided that this group had a lot of potential to do much more and we should give them an event to showcase their amazing progress. Here, I really want to thank Esther ma'am for her unwavering support, clarity and guidance that she gave us in formulating this event.
